**PROSPECTUS
FOR
FELLOWSHIP PROGRAMME IN PAEDIATRIC
UROLOGY**

JULY – 2017

PEDIATRIC UROLOGY FELLOWSHIP RGUHS UNIVERSTIY

SYLLABUS TO BE FOLLOWED FOR TRAINING OF CANDIDATE

1. The candidate should gain the ability to do all index cases alone. Index cases refer to standard Ped Urology Procedures like

OPEN PROCEDURES

Pyeloplasty including infants

Ureteric reimplant with or without tapering of ureter Introduction of Teneckhoff catheters (both open and laparoscopy)

DAY CARE PROCEDURES

Circumcision

Hernia, hydrocele

Orchidopexy

Testis and appendix of testis torsion

Ovarian torsion

CYSTOSCOPY AND RELATED PROCEDURES

Cystoscopy

RGP

Stent removal

Insertion of DJ stent under fluoroscopy

PUV fulguration (including newborns)

Cold knife stricturotomy

Deflux injection

Botox injection

Ureterocele deroofting

LAPAROSCOPY

Diagnostic

Orchidopexy

Nephrectomy

Biopsy

Insertion of peritoneal dialysis catheter

HYPOSPADIAS

TIP

Onlay

Tubed pedicle flaps

Staged procedures

Buccal mucosa (harvesting and onlay)

RECONSTRUCTIVE UROLOGY

Mitrofanoff and Monti procedures (appendix, ureter, small bowel) Augmentation cystoplasty (Ileum, colon)

Preparation and creating of pouches (like Indiana Pouch)
Exstrophy repairs (including bladder closure in newborns)
Bladder neck procedures (like YDL bladder neck plasty)
Use of slings to elevate the bladder neck
Epispadias repair
Ureterosigmoidostomy

ONCOLOGY

Wilms' tumor
Neuroblastoma
Testicular and Ovarian tumors
Rhabdomyosarcoma - biopsy

STONE MANAGEMENT

Uretero-renoscopy and lithotripsy
PCN – access to the kidney
ESWL in children – optional

2. Be thorough familiar with all complications associated with a particular procedure and be able to clearly enunciate a plan of action if there are complications (for example – urine leak after a pyeloplasty – algorithm of management)
3. Screen patients in a Pediatric Urology OPD and formulate a plan of management for every case that should be discussed with the consultant
4. Become thoroughly familiar with the conduct of a well formatted and proper urodynamic study – both uroflow and CMG. The results of the study should be discussed with the consultant who can then assess the grasp of the candidate
5. Be able to perform contrast studies in children in the radiology department under fluoroscopy – like MCU, AUG etc
6. Participate actively whenever interventional radiology procedures are done in a radiology suite.
7. Become thoroughly familiar with all aspects of Nuclear Medicine Studies like DTPA, DMSA, DRC etc.
8. Have a working knowledge of how to do a renal ultrasound. If feasible the candidate can be attached to a ped ultrasonologist and can become thoroughly familiar with the performance of a renal ultrasound.
9. Have a working knowledge of antenatal ultrasound and participate if possible in antenatal interventional procedures
10. Have a working knowledge of peritoneal and hemodialysis in children.
11. Have a working knowledge of renal transplantation in children including scrubbing up and assisting in transplants (optional).

12. Carry out one retrospective analysis of departmental material.
13. Make one presentation at least in a national conference.
14. Participate and present in all city meets pertaining to the specialty.
15. Publish at least one paper (based on analysis done) in a refereed journal.
16. Carry out one prospective study based on a clinical problem.
17. Weekly journal clubs (at least one publication should be thoroughly analyzed every week)

LOG BOOK MAINTENANCE:

The candidate should maintain a logbook of all procedures assisted and done independently. Follow-up notes of adverse events are mandatory.

ROTATIONS IN OTHER DEPARTMENTS

Rotations in other departments (like Ped Nephrology / Nuclear Medicine / Transplantation) can be an internal arrangement. However the candidate should not spend more than one month away from the parent department during the training year. This one month period can be spread throughout the training year so that the candidate is not absent for a prolonged period of time from the parent department

EXIT EXAMINATION (for certification) Content:

Theory – For a duration of 3 hours in the form of short clinical based problems or notes on recent advances. The questions should be aimed at testing the ability of the candidate to think clearly and apply his knowledge to difficult clinical situations.

Practical – A set of short cases with completed investigations can be discussed along with a ward round. This can be coupled with a discussion on operative technique, an orals on recent advances, and a thorough discussion of the log book, a discussion on the prospective study done by the candidate, a discussion on instruments and scopes, investigations (CT Scan, MR Urogram, IVP, ultrasound, urodynamics)

Place of Examination – This can be decided after discussion with the Vice Chancellor of the RGUHS depending on number of candidates and willingness of the concerned department to host the examination.

Examiners – These can be chosen from any of the states of India and overseas after due discussion and approval by the Vice Chancellor RGUHS.

Accommodation facilities

Furnished accommodation is available in the adjacent PG Hostel which is situated within the campus

Fees & Stipend:

Fees for the course	:Rs.34,820.00
